

ACKNOWLEDGEMENT OF NOTIFICATION
OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

REGION I

DATE: October 23, 1984

SUBJ: Deletion of Transporters

FROM: Christine O'Shaughnessy

TO: Ira Leighton

In a letter dated January 24, 1984 (Attachment 1) from Steven DeGabriele to Gary Gosbee, DEQE requested that EPA delete the transporter status for 217 companies because they are no longer or never were licensed to transport hazardous waste in Massachusetts. DEQE notified these companies that they were deleting their transporter status (see Attachment 2). EPA did not act on this request at that time. A follow-up list (Attachment 3) was sent to EPA in September, 1984 from Nancy Wrenn to Christine O'Shaughnessy. This list includes only 79 of the 217 companies on the list of January 24, 1984. These 79 companies are companies which filed as transporters only; therefore they will change status from transporter to out of the system.

EPA will delete these companies' identification numbers from the data base. EPA will not send a letter to notify these companies of the deletion as DEQE notified them in December 1983 (see Attachment 2).

ANTHONY D. CORTESE, Sc. D.
Commissioner

The Commonwealth of Massachusetts
Executive Office of Environmental Affairs
Department of Environmental Quality Engineering
Division of Hazardous Waste
One Winter Street, Boston, Mass. 02108

January 24, 1984

Mr. Gary Gosbee
State Waste Program
EPA Region I
JFK Federal Building
Boston, MA 02203

Dear Gary:

As you know, the Massachusetts Department of Environmental Quality Engineering has adopted licensing and regulatory program which requires a detailed and thorough review of the credentials of each applicant for a hazardous waste transport license. We are now in the process of completing the review and license issuance of many transporters who notified EPA of their intent to transport hazardous waste in Massachusetts early in the RCRA program. Several of these applications may be denied. The total of active transport licensees at this time is 137. Your data base (printout of 9/9/83) shows 354 firms which have notified EPA of their intent to transport hazardous waste in Massachusetts. (There is an even greater discrepancy because our list of licensees includes out-of-state companies.)

In order that EPA's data base be concurrent with DEQE's and to help prevent violation of Massachusetts law which prohibits the transport of hazardous waste in Massachusetts without a valid license issued by DEQE, I am submitting to you a list of those firms which either have never been or are no longer licensed to transport hazardous waste in Massachusetts.

Please remove from your data base the designation of transporter for the firms on the attached list. We will forward to you additional names as they become known to us.

Thank you very much for your consideration in this matter.

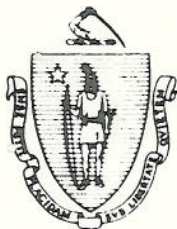

Sincerely,

A handwritten signature in cursive script that reads "Steven A. DeGabriele".

Steven A. DeGabriele
Acting Deputy Director

SAD/NW/gr

Enclosure

ANTHONY D. CORTESE, Sc. D.
Commissioner

The Commonwealth of Massachusetts

Executive Office of Environmental Affairs

Department of Environmental Quality Engineering

Division of Hazardous Wastes

1 Winter Street, Boston 02108

December 5, 1983

Dear Sir/Madam:

In your notification of hazardous waste activity to the U.S. Environmental Protection Agency you indicated that you intended to transport hazardous waste within Massachusetts.

The Massachusetts Hazardous Waste Management Act, General Law Chapter 21C, provides that no one shall transport hazardous waste without obtaining and maintaining a valid license from the Department of Environmental Quality Engineering. A vehicle identification device is needed for each vehicle used for this purpose. Only transport at the site of generation is exempt from this requirement.

Our records indicate that you do not have a license, or a pending application for a license, to transport hazardous waste in Massachusetts. In order to keep our data base current, we will delete your status as a hazardous waste transporter unless you notify the Department within 15 days of your receipt of this letter that you actively intend to apply for a transport license.

You may contact Janet Hartke at 617-292-5823 or send me a letter at the above address.

Sincerely,

A handwritten signature in dark ink, appearing to read "Steven Dreeszen", written over a horizontal line.

RE: EPA ID Number MAD052928041

Dear Mr. Buccini:

This office is in receipt of your correspondence of August 18, 1983 advising us of an error in your company's hazardous waste notification and requesting our office to make the appropriate change in our records. The change in your notification from a transporter to a small quantity generator of hazardous waste is presently being made.

Should you have any questions, please do not hesitate to call me at (617)223-3468.

Sincerely,

Stephen Yee

Re: MAD #052928041

Dear Mr. Yee,

Please be advised that we are not a hazardous waste transporter.

We are a small quantity generator.

Please change your records accordingly. Thank you.

FILE NO. *R-1B*

Dear Sir:

This letter is in response to "soft Hammer" demonstration and certification requirements per 40 CFR 268.8 (a) (2) for the "1st & 2nd third" waste codes. The waste listed below is organic in nature and the hazardous constituents can be destroyed by thermal oxidation. I believe the greatest environmental benefit would be provided by thermal oxidation/incineration of these materials.

Demonstration

My organization has contracted with North East Solvents Reclamation Corp. to manage our waste and maintain documentation that the listed waste is treated/disposed by these methods. North East Solvents Reclamation Corp. has contacted the following facilities on our behalf:
